**Helpful Advice**

- Contacting Customer Support will not change the information above. SolidTrust Pay is continuously working to bring services to everyone, everywhere and with the least amount of inconvenience.

**\*\*\* From NWE founder, Kevin Simpson \*\*\***

We have chosen STP for leadership, safety and security reasons. PLUS they have the least amount of identified countries with slight formality changes to transact and or to become a verified user.

As for the USA states unable to activate a STP account, we are working on another payment/processing solution. PayPal for example refuses to step up with the times, and others thus far are simply too difficult and lengthy to open an account.
